FOR EXCHANGES AND RETURNS Wetsuit Folding Instructions:

- Located your original packaging
- Close all the zippers; ensure that any zipper pulls lie as flat as possible

Proper folding helps prevent Texture Skin (front and back of torso material shown in these steps) from creasing.

If product is returned with creases in the texture skin, the warranty will be voided and your return or exchange may be ineligible for credit or size exchange.

If product is not returned in its orgiinal condition and / or packaging, it will need to be returned to the customer at their expense.

Do not use USPS Flat rate box, they are too small to accommodate most wetsuits.

Any Questions? Give us a call:

Toll Free: 866-573-0702

Rest the inflated plastic material from your wetsuit's original packaging at the hips, as shown.

Fold your wetsuit in half at the hips (at the plastic from step 3). The legs should cover the arms.

Finally, fold your wetsuit in half one more time. The legs should no longer be visible.

Carefully flip your wetsuit over and place it back in its original package (box) right side up. Ensure that your wetsuit is not packed to loose or too tight.
